

THE MOOSE JAW TIMES.

VOL. X.—NO. 14.

MOOSE JAW, N. W. T., FRIDAY, OCTOBER 7, 1898

\$1.50 PER ANNUM.

Bread for the Hungry Threshers.

FARMERS! we're after you with big bids for your business. Threshing time is now with us and you require bread for the hungry threshers. We are here for your accommodation with a big reduction in the price of flour. We are now offering the celebrated

Strong Baker for \$2.25 a Bag.

The inferior quality is an expensive article when you can get the best for the same price. Bread is the staff of life, but a bad batch makes a botch of the baking. Prevent this by using Strong Bakers. This is a big drop in flour and our price is beyond competition.

Thoughtful people naturally seek the best—by dealing at "The Model Grocery Store" they get it.....

J. J. & A. McLEAN.

Ready for Business...

The new Bakery has opened and is now ready for business, with a full supply of everything in our line. We have just built a first-class oven and are in a position to guarantee satisfaction. All we ask is a trial. Soliciting a share of your patronage, We remain, yours truly

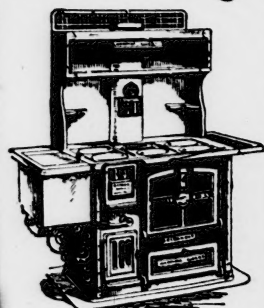

SNODIE & WHITE,
Bread on sale at
J. J. & A. McLean's.

It Will Pay You to call On...

G. K. Smith,

For... Your Eve Troughing.

Call and see our new lines and get prices. We shall be pleased to show you through.

Robinson & Hamilton.

FORGET IS GOVERNOR

A NORTH-WEST MAN FOR A NORTH-WEST OFFICE.

For the First Time in the History of the Territories a Western Man is Appointed to the Lieutenant-Governorship—David Laird Appointed Indian Commissioner.

Ottawa, Oct. 5.—A. E. Forget, Indian Commissioner at Winnipeg, has been appointed Lieutenant-Governor of the North-West to fill the vacancy caused by the death of Lieutenant-Governor Cameron. Mr. Forget will be succeeded as Indian Commissioner by Hon. David Laird, of P.E.I. Minister of the Interior in the Mackenzie government. When Mr. Laird was Lieutenant-Governor of the North-West he also acted as Indian Commissioner, and discharged the duties satisfactorily. Mr. Forget is popular in the Territories and his long experience there in his position specially qualifies him for the office to which he has been appointed.

Amedee Emmanuel Forget is the son of the late Jerome Forget, by his wife, Marie Guenette, and was born at Mariville, Que., Nov. 12, 1847. Educated at the College of Mariville, he was called to the bar, 1871, and served for some years as secretary to the council of the bar of Quebec. On the organization of a separate Government for the N. W. T., Oct. 1, 1878, he was appointed clerk of the Council and private secretary to the Lieutenant-Governor, and accompanied Mr. Laird to the seat of Government at Battleford. Later he became clerk of the Assembly at Regina, and was appointed Assistant Commissioner of Indian Affairs for Manitoba and the N. W. T., Aug. 3, 1888. Mr. Forget was appointed a member of the Council of Public Instruction for the N. W. T., Aug. 3, 1893, and succeeded Hayter Reed as Indian Commissioner, Sept. 1895. He is a member of the Church of Rome, and married Miss Henriette Drolet. He is president of the Regina branch of Canada Mutual Loan and Investment Co. For the past eighteen months Mr. Forget has been a resident of Winnipeg, the head office of the Indian Department having been removed to Winnipeg.

PROSPEROUS RANCHING TOWNS.

Swift Current and Maple Creek Making Progress.

A representative of Tax Tones paid a first visit to Swift Current and Maple Creek, the two leading ranching towns between here and the "Big Horn" Saturday. After leaving Moose Jaw the many substantial farm houses of the Boharm and Caron settlements could be seen on both sides of the track, while the numerous wheat stacks visible, and the large elevators at Boharm and Caron, bore witness to the fact that this district is one of the leading wheat producing localities in the North-West. A few miles west of Caron there are no such gratifying signs to please the eye, but every Moose Jawite knows full well that the country is not altogether unprosperous. Parkbey, Chaplin, Rush Lake and Morse are all ranching centres, which contribute more or less to the merchants of Moose Jaw. The next station of importance is

SWIFT CURRENT.

one hundred and twelve miles west of Moose Jaw, and situated on the banks of the Swift Current creek. In the early days this town was a place of considerable repute. It was a base of supply for the troops engaged in quelling the rebellion of 1885, and until the opening of the Prince Albert road in 1891 Swift Current was the southern terminus of a stage line from Battleford. Since then the Battleford trade has been diverted to Saskatoon and in the outside world Swift Current is now looked upon more as a place of former greatness than as a present live of industry. Such was the impression that possessed Tax Tones man until he got off No. 1 on Monday afternoon. But before he had been there an hour his notions underwent a complete change. Swift Current is a divisional point on the C.P.R. and as such draws a considerable support from the road. The round house is nearly as large as Moose Jaw's and gives employment to a staff of five or six rippers, besides the turner and Mr. Wheatley, locomotive foreman, who succeeded Mr. Patterson, the latter having been promoted to the position of foreman of the erecting shops in Winnipeg. This is also a repeating station on the telegraph system, and this means the employment of five commercial operators. Besides three or four train dispatchers, the main building is the C.P.R. dining hall, which is conducted by Mrs. M. Goodwin.

one hundred and twelve miles west of Moose Jaw, and situated on the banks of the Swift Current creek. In the early days this town was a place of considerable repute. It was a base of supply for the troops engaged in quelling the rebellion of 1885, and until the opening of the Prince Albert road in 1891 Swift Current was the southern terminus of a stage line from Battleford. Since then the Battleford trade has been diverted to Saskatoon and in the outside world Swift Current is now looked upon more as a place of former greatness than as a present live of industry. CONSERVATIVE MEETING

The general meeting of the Conservatives of the town and district of Moose Jaw will be held in Central Hall Saturday afternoon, Oct. 15, at 2 o'clock p.m., for the transaction of business and re-organization. A full attendance is requested. By order of the

COMMITTEE.

whose hospitality we enjoyed during our visit. Workmen were busy commencing the erection of a new dam on the river in order to increase the water supply, and we were informed that the C. P. R. company will also put in a new steel bridge at this point. There are several stores and a number of pretty private houses, besides a private cannery. But the business of Swift Current is ranching, which is largely followed in the district at Saskatchewan Landing on the South Saskatchewan, about thirty miles north of town. The C. P. R. Company have an immense sheep ranch, immediately south of town, and this firm alone have shipped out over four thousand head of sheep this season. Besides this there has been shipped from the district this year about four thousand young steers and about five hundred head of beef cattle. All the business men were in high spirits over the present prosperity and the outlook for the future.

MAPLE CREEK.

After a run of about 45 miles we came to Maple Creek, the next town of importance. Being situated in the centre of one of the best ranching sections in America, and surrounded for a radius of about 40 miles with a prosperous ranching community, Maple Creek is undoubtedly a ranching town. Judging from the number of new buildings recently erected and the improvements now being made, it is quite evident that the ranchers are enjoying an era of unprecedented prosperity. Last year the Anglican congregation built a new church, and this spring a handsome stone manse for the incumbent, Rev. T. W. Canfield, was completed. The Methodist church has also been improved this year, while the Presbyterians have a large stone church, built a few years ago. Rev. Mr. Lawson, the Pastor, is leaving for British Columbia, and will be succeeded by Rev. Mr. Grant of Macleod. W. F. Lawrence is erecting a large furniture warehouse and showroom, and also a cash and shoe factory. Mrs. W. B. Abbott is building a new residence, and Mr. H. Fleming is improving his. Besides these improvements the C. P. R. is building a new frame station, the need of which has been felt for some time. But considering the volume of business done at Maple Creek, the new building does not come up to the expectations of the business men and residents of the town; but it will be a great improvement and afford better accommodation than the old structure. There are about twenty business places in the town, the largest of which is the general store of Dixon Bros., it being a three story building situated 70 feet long by 27 feet wide. J. G. Bosley, a C. P. R. Moose Jawite and brother to Mr. J. G. Bosley of Marlborough, is the pioneer merchant, having started business there after the rebellion in 1885. In Maple Creek it is not necessary to have a large staff of clerks to serve the customers. However, a visitor unacquainted with the business of a rancher would imagine that business was dull. But not so. A rancher does not go shopping every day. But when he does—usually twice or three times a year, his order generally runs up the \$30 or \$40 mark. There are between two and three hundred ranches within a radius of 40 miles of the town. Already there have been shipped from the C. P. R. stock yards this season about six train loads of cattle, eight cars of sheep for the Canadian market and eight cars of horses, and the ranchers have reported about 50,000 head of young steers from the west, besides 1000 head from the United States. These will be turned loose on the ranges for a couple of years, when they will be ready for the eastern market.

SIR WILLIAM VAN HORNE.

The President of the C. P. R. and Party in Town Yesterday.

Sir William Van Horne, president of the Canadian Pacific Railway and a party of friends arrived in town from Montreal by special train yesterday. The President's party travelled in the private car "Saskatchewan" and included Dr. William Peterson, principal of McGill University, R. W. Ogilvie, president of the Ogilvie Milling Company, R. E. Angus, a member of the executive council of the C. P. R., and a director of the road, and Mr. E. R. Oiler, M.P. of Toronto, a director of the railway. Manager Whyte of the Western Division escorted the party over the section of the road and through Moose Jaw, accompanied them to the end of his division.

This is the President's annual visit to the western portion of the line. They will go through to the coast on the main line and returning will inspect the Crow's Nest Pass railway which will be open for traffic in November, the end of the month. During a brief stay here the President inspected the new C. P. R. depot and hotel, numerous of erection here, and appeared to be well satisfied with the structure and the condition of things generally at Moose Jaw. They left about 1:30 following the depot west-bound express.

The Best in The Territories.

The annual report of the Canadian Military Rifle League has been issued. We notice that Moose Jaw leads the list of Rifle Associations in Manitoba and the Territories, the scores being as follows: Moose Jaw 292, 444, 276, Brandon 245, Glen Adelaide 277, Cammerton 257.

The following members of the Moose Jaw R. A. have secured second-class marksmen's certificates: C. A. Cass, T. Withrow, D. Moore, W. J. White and J. R. Smith.

During September the shooting season in the North-West, conducted under the auspices of the agriculture department, produced eighty thousand pounds of butter.

THE CRISIS IN CHINA.

THE POWERS MAY DECIDE UPON OCCUPYING PEKIN.

German Warships Sail for Taku—The British Foreign Office Discredits Reports of Emperor's Death.

London, Oct. 3.—The British foreign office has no news of the death of the Emperor of China, and discredits the report.

Shanghai, Oct. 3.—The dowager empress has issued an edict in the name of the emperor, declaring that Kang Tai Wei, the Cantonese reformer, headed an attempt on the life of the dowager empress, and conspired to subvert the Manchu dynasty, in both of which he had been detected and his plans failed. Therefore, he and his partisans were traitors, and worthy of death.

London, Oct. 3.—The Pekin correspondent of the Daily Mail, telegraphing at Sept. 29, says that the emperor had been arrested by the foreign powers. The emperor, who is now at the palace, was arrested by the foreign powers. The emperor, who is now at the palace, was arrested by the foreign powers.

London, Oct. 4.—A special dispatch from Shanghai says that telegrams from Pekin have been detained two days. The last telegram received, according to this dispatch, announces that the foreign ministers held an emergency meeting. The German warships at Kiam Chai, it is stated, had started hurriedly for Taku the day before.

Margius to the effect it is understood, is visiting China for the purpose of arranging an offensive and defensive alliance between China and Japan owing to the impossibility of prosecuting the negotiations during the crisis, has left Tsin Tsin for Shanghai. The foreign ministers, it is said, forwarded foreign residents going to Pekin it is expected in Shanghai that the crisis will result in a joint occupation of Pekin by the powers.

The Tsung Li Yamen has demanded that Sir Claude Macdonald, the British minister, shall surrender Kang Yui, Yamantzu, leader of the rebellion in the Sze Chuen province, has issued a proclamation ordering the extermination of all foreigners.

TESLIN MURDER.

A DOUBLE TRAGEDY ENACTED ON THE TESLIN LAKE.

The Assassin in Attempting to Escape Is Shot by His Pursuers, Among Whom Is His Own Brother.

Victoria, Oct. 3.—An Englishman named C. Way, who returned on the Dirango from an unsuccessful prospecting trip up the Hootalinqua, brings news of a murder and lynching on that river amongst a French Canadian party hunting from Quebec. The party, which went over the Skekine trail last winter, had got as far as about thirty miles below Lake Teslin, where they were encamped, about eight weeks ago when the tragedy occurred. The murderer, Xavier Lanson, lost considerable money in playing cards with the men who, after wards felt a victim to his knife, and alleging cheating on the part of the winner, he swore to be avenged. The night following he crept to where his victim lay asleep and plunged his jackknife into the prostrate body several times. When the other members of the party awoke next morning they found Lanson, the murdered man, lying in a pool of blood, dead, and Lanson missing. After a chase of about three hours they captured him. About ten minutes after his capture he endeavored to elude his captors and run, but they rioted his flying form with bullets and leaving his dead corpse lying on the river bank, returned and buried their murdered comrade, marking his grave with a little wooden cross. Among the party who lynched Lanson, according to the Englishman's story, was his brother, Henri Lanson. The lancers were, it is said, formerly merchants in Point Levis. Lanson, killed from Three Rivers. It seems strange that if such a crime had occurred it has not hitherto been reported.

DEATH OF DANISH QUEEN

The Royal Sufferer Passes Away Surrounded by Her Family.

Copenhagen, Sept. 29.—The Queen of Denmark died at 5.30 o'clock this morning.

London, Sept. 29.—A dispatch to the Times from Copenhagen gives the following description of the death of the Queen of Denmark: "The Kings of Denmark and Greece and the Princess of Wales alternately during many hours, held the hand of the dying queen, who, for a few moments recovered consciousness but could not speak. Her husband wept and the physicians begged him to retire to rest, but he replied: 'I will stay at least while the queen is conscious.'"

The Queen, has been dangerously ill for several months, but an effort had been made to keep the condition of the royal sufferer from the public. Her daughter, the Princess of Wales, was summoned to Denmark in haste a few weeks ago.

Queen Louise of Denmark was born September 7th, 1817. She was the daughter of the Landgrave Wilhelm of Hesse-Cassel. She was married on May 26th, 1842, to Christian, fourth son of the late Duke Wilhelm of Schleswig-Holstein-Sonderburg-Glücksburg. Prince Christian was appointed in succession of the crown of Denmark by the treaty of London on May 8th, 1852, and by the Danish law of succession on July 31, 1853. He succeeded to the throne as Christian IX on the death of King Frederick VII on November 15, 1863.

Everywhere flags are half-mast. The queen did not die of any special illness, but of increasing decrepitude.

TRAGEDY AT YORKTON.

Robert Moore Mortally Wounded While Resisting Arrest.

Yorkton, Assa., Sept. 28.—Robert Moore was fatally shot by Constable Lock, N. W. M. P., while resisting arrest. This is the man who shot Livingston two years ago. Moore was shot a bullet belonging to Jas. Caldwell. The police went to arrest him last night and he locked himself in his house and defied them. They withdrew and returned today, broke into the house and rushed him. He shot at Constable Hamilton with a double barreled shot gun, narrowly missing his head. Constable Lock fired his carbine through the doorway at Moore's hand and as the latter stopped forward to shoot at Lock, Moore fell with a ball through his bowels. There were eight loaded cartridges on his person and one in the gun undischarged. He was brought to town for surgical aid but the wound is mortal.

Expenses of War.

Madrid, Sept. 29.—Figures published by the agency, which give the expense of the war as two thousand million pesetas, is short of the exact figure by nearly two thousand million. Before the beginning of the war the disbursements had been two thousand millions. Porto Rico during the war cost ten millions, while in Cuba money was absorbed in such a prodigious manner that, to use the words of Senor Romero Giron, expressed a few days ago, "The Island of Cuba has been an immense abyss in which hundreds of millions have vanished in a manner which will astonish the taxpayers as it did me."

FIVE PERSONS KILLED

In a Collision on the Intercolonial Railway—Orders Were Misunderstood.

Halifax, Sept. 28.—A special from Stellarton says a serious accident occurred near here on the Pictou branch of the Intercolonial railway this morning. A special from Tatamouche in charge of Conductor A. R. McLeod, collided with a coal train in charge of Conductor W. Gordon at a point between Westville and St. Ellerton, known as Adams Cut. Five persons were killed, they are:

James Spronle, engineer.
Michael O'Brien, engineer.
W. G. Halderson, fireman.
J. R. McKenzie, fireman.
A passenger named Martin McDonald, of Lyons.

Two passengers are seriously and a number slightly injured. One of the two badly hurt is John McMillan, of Pictou. The accident was caused by a misunderstanding of orders. The special was an excursion train of seven cars crowded with people bound for Halifax for the provincial fair, the other train was going to Westville with about sixty miners on their way to work in the Acadia colliery. The collision occurred at a sharp curve, and the two trains, which were running at high speed, came together without warning.

Destructive Timber Fires.

Denver, Col., Sept. 28.—Dispatches received here indicate that great fires are devastating the timber growth on the main range from Harts Peak on the north to Ragosa Springs on the south, a distance of hundred of miles, the flames doing destructive work are unchecked. The flames are known to be doing tremendous damage in Routt county, in Egeria Park, along the Roaring Fork river and down in San Juan river region.

The estimate of the damage done is hard to make, but will run into the millions. Human life may already have been sacrificed. If the fires are not soon quenched by a heavy rain, may persons will certainly perish. Several mining camps and innumerable ranches are even now in danger of destruction.

Hanged Himself.

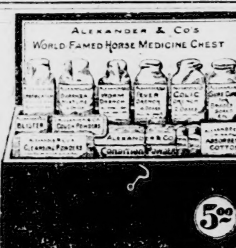

Galt, Ont., Sept. 30.—John Ham, Sr., an old resident of Doon, committed suicide last night. He took his cattle to pasture in the morning, remained with them all the day, and in the evening delivered them into the charge of some boy to drive home, to whom he gave a few coppers. He climbed the hill leading to C. D. Good's bush and hanged himself to a tree. He was found dead two hours later by his son-in-law, Mr. Meier. He was widely known, and much respected.

Hostile Indians.

St. Paul, Sept. 28.—Regular troops have been ordered to Leech Lake because of the Indian trouble, which threatens to become serious unless suppressed at once.

A girl loves to be loved by a man that she knows some other girl loves. Borrowers are like pierrist—very hard and very sweet.

One way to keep on friendly terms with your neighbor is to keep off his premises.

WHAT IS IT?

Why Cure for Sick Horses and Sick Cattle.

All classes of stock are successfully treated by medicine and instructions, supplied in our World Famous Medicine Chest. The price is only five dollars, and contains everything required on a farm or ranch. Will save your valuable stock and large professional bills. Testimonials from all parts of the world mailed on application.

ALEXANDER & CO.,
208 Graham Ave.,
WINNIPEG, MAN.
BIRMINGHAM, ENG.

IS DREYFUS INNOCENT?

GERMAN OFFICERS WILLING TO GIVE EVIDENCE.

H. Sarrien, Minister of Justice Takes Action on the Cabinet's Decision—Emperor William's Views.

London, Sept. 28.—According to the National Review, if France requests it, Germany will permit General Schwarzkoppen, formerly German military attaché in Paris, to reveal all that he knows regarding the Dreyfus affair. The National Review's article indicates that much of the information published in London by Mr. Conyngham, and others, emanated from Col. Schwarzkoppen and Col. Penzance, the Italian military attaché in Paris.

London, Sept. 28.—According to the Vienna correspondent of the Daily Chronicle, Emperor William recently repeated his conviction that Dreyfus was innocent of the charges brought against him.

Paris, Sept. 27.—M. Sarrien, minister of justice, communicated to the council of ministers to-day the terms of the letter which he will present to the court of cassation demanding the revision of the trial of Dreyfus, and also submitted the circular issued to the procurer-general in view of the energetic measures which are to be taken for repression of all attacks upon the army in public meetings, etc. The present understanding is that there is to be a re-establishment of the military.

Revisionist newspapers are rejoicing over yesterday's decision of the cabinet, revising the Dreyfus case, and the anti-Dreyfusists are correspondingly crestfallen.

Le Voltaire says: "Now we have entered the path of loyalty." L'Aurore says: "Government which supports justice and truth has arisen." The anti-Dreyfusists are correspondingly crestfallen. Parole both indulge in violent attacks upon Premier Brisson and Le Petit Journal declares: "We are in the presence of a political revision conceived by politicians and organized like a conspiracy."

Le Figaro says that the action of the cabinet will result in quieting public opinion, and that henceforth agitation will be both criminal and stupid. Le Matin praises the government for its courage, but at the same time expresses fear that the anti-revision campaign will continue livelier than ever.

THE MARKETS.

New York, Oct. 3.—Wheat receipts, 375,000 bushels; exports, 337,325 bushels, 25¢.

Chicago, Oct. 3.—The leading futures closed as follows:
Wheat—Oct. 1893; Dec. 62½; May 63½.
Corn—Oct. 1893; Dec. 24½; May 25½.
Oats—Dec. 23; May 24½.

WINNIPEG MARKETS.

Wheat—55 to 59c.

Hogs—Practically out of the market. Any that are offering bring 5 to 5½c.
Horses—Good, smooth horses of ten to eleven hundred pounds weight are worth from \$125 to \$175 each if well broken; broodmares \$25 to \$50 unbroken.

Hogs—Offerings are very light. All coming are taken by butchers at 5 to 5½ off cars here. Packers are not getting any.

Aid for Barbadoes.

London, Oct. 3.—The government cabled to Sir James Shaw Hay, governor of Barbadoes, directing him to cable an estimate of the total sum of money required to cover the actual distress caused by the recent hurricane. The colonial office yesterday received the following dispatch from Governor Hay: "Laborers' houses destroyed, £10,377; damaged, £4,644; cost to restore, £37,000, not including personal effects. I have available £16,000, and earnestly request £20,000 more immediately. This estimate covers only the losses of the poorer classes."

Typoid at Ottawa.

Ottawa, Oct. 3.—Typoid fever is so prevalent in Ottawa as to cause anxiety. Eight cases have developed among the boarders at the Young Men's Christian association building on Metcalfe street, a handsome structure with all modern sanitary equipment. The city hospital has an unusually large number of typoid patients.

THE LAW'S LONG ARM.

Dr. Nancy Guilford, of Bridgeport, Conn., Arrested for Murder in London, Eng.

London, Sept. 27.—Detectives awaited the arrival here this morning of the steamer Vancouver from Montreal, and upon the landing of her passengers followed a woman who came ashore from the steamer. The officers maintained secrecy regarding this person, refusing to give her name or to discuss the case beyond saying that she is suspected of having committed a murder in Canada. The woman boarded a train for London, Inspector Lamont following her in the next compartment, with instructions to arrest her if she went to a house which the Canadian police had informed the English authorities would probably be the destination of the murderess. It has been reported in New York that the woman known as Doctor Nancy Guilford, of Bridgeport, Conn., has been arrested in Liverpool, charged with being concerned in the murder of Emma Gill, of Southampton, Conn., where a body, cut in several pieces, was found some time ago in the Yellow mill pond near Bridgeport.

Stanford, Conn., Sept. 27.—The state attorney Samuel Fessenden, was seen this morning and asked if he had any information that would confirm the reported arrest in Liverpool this morning of Dr. Nancy Guilford, who is wanted for alleged connection with the dismemberment of Emma Gill's body and other serious charges in connection with the death of the young girl. Mr. Fessenden said he had received a telegram from Liverpool announcing that a person answering the description of Mrs. Dr. J. Guilford had left the steamer Vancouver upon its arrival at Liverpool this morning and had gone to London under police surveillance. Mr. Fessenden immediately communicated with Governor Cook, and on his request the governor asked the state department at Washington to request the United States embassy at London to provide for the provisional arrest until the proper papers could reach there. Mr. Fessenden said he has since learned that the state department had called London and requested the state attorney to say that from information placed in his hands by the detectives he has had at work on the case, he believes that the woman under surveillance in London is Dr. Nancy Guilford.

Will Not Visit Toronto.

Toronto, Sept. 26.—Right Hon. Jos. Chamberlain, colonial secretary, has written that he is compelled to decline the banquet tendered him by the city council. He cannot on this occasion, to his regret, visit Toronto. Col. Denison, who had tendered Mr. Chamberlain the banquet on behalf of the British Empire league, has received word to the same effect.

TYPHOID AT DAWSON.

Three Thousand Cases Are Reported—All Cases Are Sent to Dawson.

Port Townsend, Wash., Sept. 26.—The steamship Topoka arrived from Lynn canal ports with 150 Klondikers, most of whom have little or no dust to show for their experience in the land of gold. They express themselves as being glad to get out alive. Three thousand cases of typhoid fever is the estimate placed on the number of sick in Dawson on Sept. 6th. A large number of deaths occurred daily, of which no record is made. Colder weather coming on soon will check the fever. It is estimated that 9,000 people have joined the rush to Stewart river. Nearly every foot of available ground has been prospected, but no gold found. That section has been deserted by all except a few who hope to create another excitement next season.

Among the Topoka's passengers is Joseph Leduc, the founder of Dawson. He says many returning are men who even if the country was one solid mass of gold, would not make anything, consequently they give the country a bad name. He admits that there is a great deal of sickness, but says that Dawson is a hospital for all the tramps. When any one is taken sick anywhere along the river, he is sent to Dawson, which gets the credit.

THE FIRE FIEND

Ragos Unhated in the Rockies and Wisconsin.

Denver, Oct. 2.—The forest fires on the west slope of the Rockies continue to spread. Only a heavy rain can stop them. In the vicinity of Steamboat Springs there has been a rainfall which checked the fires there, but they are still smouldering.

Milwaukee, Oct. 2.—A special from Rice Lake says: Relief parties are now out through the border districts south and west of this city. The loss of life from the disastrous fires cannot now be estimated, but will be great. The work of getting to the burned districts is slow, as all the bridges are down.

More than one hundred persons are missing. Many dead bodies have been found. They are burned beyond recognition. The body of a man named Nelson was found today at the bottom of a well, where he had gone to escape the fire. At another place a woman and two children were found in a well. The woman was so badly burned that she will die.

All cattle, horses and other stock for a large district have been burned to death. Even wild animals could not escape the flames. The wind today was blowing at forty miles an hour. Fires are raging in the hardwood timber lands between this city and Cumberland, but fortunately the district is lightly populated.

The Great Navigator.

Havana, Sept. 26.—This morning the remains of Christopher Columbus were exhumed in the presence of General Blanco, Secretary Gorin, the civil governor, the bishop, the dean of the Cathedral and other authorities. The general public were excluded from the Cathedral at 8 o'clock and the entrance was guarded by a force, which kept back the crowds which assembled in front of the edifice.

THE STORM MONSTER.

FURTHER PARTICULARS OF THE CYCLONE AT MERRITTON.

Revised List of Victims—Tensawanda, N. Y., Seriously Damaged—Freaks of the Tornado.

St. Catharines, Sept. 27.—The reported death of James McCarthy and Mand O'Neil proved untrue, though McCarthy is very low and will likely die. Mand O'Neil may recover. The deaths are the same as reported last night to the Free Press with the addition of Gladys Ekins, a child, who was almost cut in two by the destruction of the house of her father, Walter Ekins. Late tonight a complete list of the dead and injured is as follows:

Dead—Mrs. John Beckley.
Miss Clara O'Neil.
Francis Moffatt.
Gladys Ekins.
Injured—Jas. McCarthy, will die.
R. H. Bradley.
Miss Jennie Nestor.
Miss Isaac O'Neil.
Mrs. Richard Thompson.
Mr. McChasland.
Mr. John Hogan.
Infant child of John Beckley.
Bessie Kerr.
Scarcely wounded—Mrs. William Lott.
Lottie O'Neil.
May Williams.
Clara Murray.
Mr. McChasland.
Edward Doyle.
Walter Wilson.
Mr. Jas. E. Bradley.
Jennie Bradley.

Rev. Lawrence Skay, rector of the Episcopal church at Merritton, went to Toronto to-day to enlist the sympathies of the press and people of Toronto on behalf of the sufferers. He was an eye-witness of the storm. His own church escaped with the destruction of the tower. The Presbyterian church is totally wrecked. About twenty-four houses are totally destroyed, being chiefly those of working people of the factories. The Lincoln paper mill, which is badly damaged, will not close down for some time.

Some extraordinary evidence has been recorded. A young son of David Ramsay was standing on the Acetylene Gas Works siding when the funnel scooped him up. His was a wonderful experience. He threw up his arms, and was unable to get them down again. His body was rigid, and he was carried over Lincoln paper mill, and deposited in a field beyond, suffering nothing but a bruised shoulder. A queer freak of the storm was noticed in the burying of stinkies in hand, leaving just enough to pull them out. Whole sections of sidewalks were thrown bodily long distances, and the peculiarities of the force exerted was shown in the simple knocking out of a corner of the steeple of St. James' church, while the buildings adjacent were reduced to rubbish.

Victoria, B.C., Sept. 27.—The Danube arrived this morning from St. Michaels with 186 passengers, and the praiser says \$500,000 in the treasury. Captain John Irving was on board. He said the steamer Yukoner at St. Michaels to Pat Galvin for \$50,000. The news comes from Dutch Harbor that the sailing schooner Otto was wrecked for being inside the prescribed limits.

CONDENSED NEWS ITEMS.

A dispatch from the London Times from Pekin says: Su Yang Yi, the negotiator of the Gerard convention of 1895, who was subsequently dismissed at the instance of Great Britain for breach of faith, has just been restored to membership in the Tsung Li Yamen.

Three children of John D. Embury, of Hungerford, Ont., were poisoned a few days ago. Two have died and the third is not yet out of danger.

The British fleet has left Taku, proceeding for Wei Hai Wei. Vice Admiral Sir Edward H. Seymour, commanding the China station, has returned to Chefoo. It is rumored that the designs of the dowager empress have been entirely successful.

An imperial edict has been published practically rescinding the Chinese emperor's reformatory measures. It also orders Chang Yen Huan, the Cantonese enemy of Li Huan Chang, to be confined for the present, but absolves him from all complicity in the alleged plot to murder the emperor.

A special dispatch to the London press from Shanghai says it is reported that Great Britain, United States and Japan are disposed to question the constitution of the government as open to usurpation. The family of Li Huan Chang, fearing the populace, have gone to Port Arthur to be under the protection of the Russians.

The police authorities have prohibited the holding of any projected Social meetings in Hamburg, called for the purpose of discussing Emperor William's recent speech regarding the imprisonment of provokers of strikes.

United States special Agent Murray, in charge of the seal islands, reports that during the past season 18,647 skins were secured, being 3,000 less than 1897. He reports a general decrease of the seal herd.

General Miles is opposed to sending troops to Cuba until December and has made a recommendation to that effect. He insists that the present period is likely to prove detrimental to the health of the soldiers.

When the train conveying General Toral arrived at the station at Bogota, Spain, a crowd which had gathered insisted that the general should show himself. Upon his doing so, the gathering loaded him with insults. General Toral, who is ill with fever, uttered a few curses and beat a retreat in order to avoid being struck.

The Buffalo club has completed arrangements for bringing off the Corbett-McCoy fight in Carson City, Nev., in November.

November. The arena used for the Corbett-Finnemore fight is still standing and will be pressed into service again.

The Berlin National Zeitung, under the highest authority, that the personal estate of Prince Bismarck does not represent as much as 1,000,000 marks, about \$500,000.

An action which promises to be a crime celebre has been commenced in the civil court at Montreal. It is brought by Edmund Beaupre against the Langue Point aerion authorities and is for \$25,000 damages for alleged illegal detention at Beaupre. Beaupre claims that he was detained in the aerium at the request of his wife who is perfectly sane, and that the aerium people remained at the detention.

The peace commission of the United States arrived in Paris Sept. 25.

The Cairo correspondent of the London Daily Mail says—Major Marshall has admitted in conversation that the arrival of Gen. Kitchener saved him from annihilation by the Derwishes.

The Earl of Minto, the new governor general of Canada, has appeared Major Drummond of the State Guards, who has just returned from the Sudan to his military secretary and has appointed Lieut. W. F. Lawrence of the State Guards, and Lieut. J. H. C. Graham of the Calcutta Guards to be his aides-de-camp.

It is announced that Rear Admiral Dewey has purchased, through an agent, a Shakespearean mill in the shape of a staff bar made from a sword-berry tree planted by Shakespeare in his garden at Stratford. The bar has formerly belonged to General Sir David Palk, one of Wellington's commanders.

The first section of the electric railroad to the summit of Jungfrau, the famous mountain of the Swiss Alps, has been opened as far as Andermatt, and it is expected the road will be finished by the year 1900.

The question of raising sugar beets, which has been under discussion by the London board of trade for some time, is one that is agitating the British farmer at the present time, and trials have been made all over Great Britain and Ireland this summer in plots ranging up to two and three acres. The results were in most cases satisfactory.

The great experiment of Langens sometimes leaves a woman's maternal chances.

"And what is writ, is writ—
Would it were worthier!" —Byron.

FRIDAY, OCTOBER 7, 1898.

Now that the threshing season has commenced we desire to draw attention to the fact that one of the many human agencies through which noxious weeds are introduced into previously clean farms is by the moving of threshing machines and other farm implements from place to place. Self-interest should be a sufficient incentive to farmers and owners of threshing machines to see that the machine is thoroughly cleaned before leaving a farm where weeds are known to be prevalent. If threshers would avoid crossing cultivated land as much as possible when travelling they would materially assist in the solving of the noxious weeds problem. Those who are most interested in the destruction of noxious weeds are the farmers, and if they would exercise a little caution along these lines, it would do more good than all the theory contained in Government pamphlets, and would greatly help to overcome the growing pest.

Canada is being advertised in the mother country as never before. That her trade is capable of large expansion is indicated by a table published in the Toronto Globe showing that the British market took in 1895 \$115,539,862 pounds sterling worth of food, of which Canada supplied 8,020,262 pounds sterling worth:

Total value	Amount supplied by Canada
Cereals.....	\$48,397,338
Animal food.....	8,727,351
Dressed meat.....	22,821,907
Cheese.....	4,550,459
Butter.....	13,865,357
Eggs.....	3,896,687
Fish.....	2,890,045
Fruit, raw.....	4,330,013
Milk, condensed.....	1,651,064
Lard.....	2,863,489
Potatoes.....	1,138,724
Poultry and game.....	589,022
Total.....	\$115,539,862

The best way to build up a town is to stand by every man in the town who does right. Whenever a man is doing well do not tear him down. All residents should be partners, not opponents. In all likelihood the more business your opponent does the more you will do. Every business man who treats his customers honestly, courteously and fairly will get his share, and the more business that can be secured by united effort the better it will be for all. When a town ceases to grow it begins to die, and the more people try to kill each other in their business the more readily will utter ruin come to all. Stand together for the advancement of every citizen. If a man shows ability to prosper do not pull him back through jealousy, or weigh him down through a cold indifference. The Ledge.

The grain movement in this district is getting nicely started, though nothing like a rush has yet set in. Last year wheat prices opened high and farmers rushed their threshing and sold their wheat freely. This year the weather has been somewhat broken so that harvest work has been retarded, while many who have threshed refuse to sell their wheat at the price offered. Having had a taste of high prices, and being in a position financially to hold their wheat, they prefer to wait awhile to see what will develop before accepting the price now current, which is about 50c. on a No. 1 Hard basis.

The death of Lieut.-Governor Cameron leaves the North-West Territories without an executive head at a time which, if not critical, is at least in a measure momentous. With the death of the Governor ceased the functions of the Administrator, an administrator in this connection being a substitute, and when there is no principal there can be no substitute. Those who have been anticipating early elections may expect to be obliged to alter their plans. Writs cannot issue until a new Lieut.-Governor is appointed to sanction the issue. The circumstances are such that it behooves the Governor-General-in-Council to lose no time in making the appointment.

STRAY ANIMALS.

The Official List as Advertised in the Latest N. W. T. Gazette.

NOTICES OF STRAY ANIMALS.

In herd of C. W. Mickle, Springbank, Alta., gelding (Percheron breed), 6 years old, dapple grey, unbroken, branded C.S. on right thigh.

On premises of R. A. Wempey, Olds, gelding, about 10 years old, sorrel, left eye missing, branded JD and GV on right thigh.

On premises of John McIntyre, Regina, since August 24, 1898, mare, bay, 14½ hands high, branded heart with bar under on high shoulder and irregular brand on high hip, had lasso on.

On premises of Thos. W. Magrath, Crescent, Assn., 2 milks, pure black and dark iron grey, born in district since early part of last spring.

On premises of C. P. Dermody, Whitehead, since August 2, 1898, mare, 5 or 6 years old, chestnut, 14 hands, well broken, white face, branded Y on left hip and left side of head, tip of left ear cut off.

On premises of John Laford, South Edmonton, since May 1, 1898, mare, bay, white star on forehead, right front and left hind feet white, about 700 lbs; mare, 2 years old, bay, white stripe on face, branded indistinctly WC on right hind leg, about 750 lbs.

On premises of Chas. Dumont, South Edmonton, since August 1, 1898, gelding, about 7 years old, bay, brand and combination HR on left shoulder, about 1200 lbs.; gelding, 7 years old, brown, white stripe on face, branded inverted C on left hip and H on left side, 1200 lbs.

NOTICES OF STRAY ENTIRE ANIMALS.

On premises of Chas. Dumont, South Edmonton, since Aug. 1, 1898, stallion, 2 years old, bay, white hind legs, white stripe on face, about 700 lbs.

On premises of Carson Latimer, Edmonton, since Sept. 8, 1898, stallion, 2 years old or over, branded E on left shoulder, 2 white hind feet, star in forehead, white spot on nose.

NOTICES OF IMPOUNDED ANIMALS.

Impounded on premises of Edmondson Smith, Lumsden, mare, about 5 years old, dark bay, white stripe on face, branded A on high shoulder.

Impounded on premises of A.H. Powell, Carleton Place, since August 11, 1898, pony mare, aged, sorrel, with few white hairs, branded S on left hip.

Impounded on premises of H. L. Fysh, Moose Jaw, pony, aged, buckskin, white face, lame in front feet.

Impounded on premises of Jas. Campbell, Moose Jaw, horse, aged, brown, white star on forehead, no brand.

Impounded on premises of Henry Wirth, Neudorf, Assn., cow, six or seven years old, red, branded CCF.

Impounded on premises of P. Schneider, Langenburg, Assn., 17 head of cattle, all aged, all colors.

Impounded on premises of Albert M. Reynolds, Gainsborough, Assn., 3 spring pigs, black, with white heads.

NOTICES OF LOST ANIMALS.

\$10 Reward. Strayed from Indian Head, August 11th, 1897, one dark sorrel horse, pony, white face, 2 white hind legs, branded monogram HR on left shoulder, had leather halter on with piece of rope attached, expected to have foal at foot. Geo. Phillips, Indian Head, Bell Farm.

Estevan.

We are sorry to learn that one of our school teachers, J. A. Valens, is about to depart from our midst. Owing to the changed of the railway division point from here to Portal, a goodly number of employees have been ordered from here to Portal, and as some families have already moved, the attendance of pupils at the school has decreased to such an extent that the Trustees consider that one teacher will be sufficient for the present. Mr. Valens commences duties as teacher at Britannia on Monday, Oct. 3rd. Rev. W. Brokenshire preached his farewell sermon on Sunday morning to a large congregation, he intends taking a year's study at Queen's College, Kingston, Ont. Our Christian Endeavor Society is progressing rapidly; the meetings are bright, instructive and interesting, and new members are coming in. Miss Jeanie Tate, of Grand Valley, Ont., has been spending a few days with her brother, Rev. Frank Tate, Methodist Mission here. Miss Tate expresses herself as delighted with the country and has made many friends during her stay. A young woman, who is a gifted soprano singer, sang and played the piano on Wednesday night with a selection. She started for Portage la Poudre on Friday and intends returning to Ontario on Tuesday, Sept. 27th. Miss J. Hegman has gone on a visit of a week's duration with friends at Oxbow. The Misses McFarlane returned to their home in Brandon on Friday.

New Hope for the Dyspeptic.—Dr. Von Stan's Pineapple Tablets are the Dyspeptic's haven of rest and cure. They contain no injurious drug or narcotic, won't hurt the most delicate and sensitive stomach, aid digestion, stop fermentation of the food, good for the blood, good for the nerves, good for the brain, make flesh increase, cure the stomach. 35 cts.

R. BOGUE.

A Sanguine London Old Boy.

(From the London Advertiser.)

Among the London "Old Boys" who were unable to participate in the recent demonstration in this city was Hon. J. H. Ross, a native Londoner, who has made a name for himself as one of the pioneer statesmen of the North-West Territories. Mr. Ross has been Speaker of the North West Assembly, and he is commissioner of Agriculture in the present Administration of the Territories. He has been in public life for a long time, yet he is a young man, and bids fair to have a long period of usefulness before him. One thing that will aid in keeping him youthful is his native enthusiasm, which he is turning to good account in advancing the interests of his adopted home. He was one of the speakers at a banquet given to newspaper men from the United States at Regina, the other day, and he delivered a speech that was full of information and of great interest on the position and future prospects of the Northwest. He pointed out how prosperous the settlers were who had made their homes on the fertile prairies, and he said that was all most superfluous, as the visitors could see the condition of the people for themselves; and he enlarged on the attractions which Canada's vacant lands and healthy climate ought to have for the people of the overcrowded portions of both the old and the new world. When, said Mr. Ross, the visitor came into the North-West Territories, they possibly had an idea that there was a very limited wheat area—that was the southern portion of the country only had the conditions for successful wheat raising. He would tell them however that they were only upon the fringe of the territory, and only on the southern boundary of the wheat area. He had occasion to visit the northern portion of the country a week or two ago. Five hundred miles of where they now sat he noticed fields of wheat, oats, and barley, and in speaking about Slave Lake to people who had been there many years, he was told that 400 miles north of them, on the Vermilion and Peace Rivers, grain had been grown successfully for fifteen years. So 500 miles north of where they now sat grain had been successfully grown for many years. Indeed he did not think it lay in the mouth of any man to say where the limit of wheat growing successfully was in the North-West Territories.

With a Commissioner of agriculture possessing the intelligence and enthusiasm of Mr. Ross, we are not surprised to learn that the Northwest is making very substantial progress, and that the visit of newspaper tourists to the United States, not only so reported when they returned home, but many of them strongly advised such of their readers as meditated a change of scene to go to Canada, as the very best country, under the new order of things, that could be chosen.

If life is worth having it is worth taking care of. Recklessness does not pay, either in our work or our pleasure. When people read of a young man who has been killed while performing some reckless feat on a toboggan or at some other hazardous sport, their sympathy is mixed with surprise that any human being should thus carelessly risk life. There are thousands of men who go about their common every-day avocations. They over-work, they do not take sufficient time from business or labor to eat or sleep or rest, or to care for their health. Outraged nature throws out danger signals, to which they pay no heed. They suffer from bilious or nervous disorders, from sick headache, giddiness, drowsiness, cold chills, flushings of heat, shortness of breath, blotches on the skin, loss of appetite, uncomfortable sensations in the stomach after meals, loss of sleep, lassitude and trembling sensations. These are the advance symptoms of serious and fatal maladies.

All disorders of this nature are cured by Dr. Agnew's Golden Medical Discovery. It restores the lost appetite, gives sound and refreshing sleep, makes the digestion perfect, the liver active. It purifies the blood and rids the system of the life-giving elements of the food. It is the great blood-maker and flesh-builder. It makes the body active and the brain keen. It is the best of pure tonics. It is a safe and sure remedy to its merits. No honest dealer will urge upon you a substitute for the little extra profit it may afford.

The man or woman who neglects constipation is gathering in the system a store of disorders that will culminate in some serious and possibly fatal malady. Dr. Pierce's Pleasant Pellets are a safe, sure, and permanent cure for constipation. One Little "Pellet" is a gentle laxative, and two mild cathartics.

Presbytery of Regina.

The Presbytery met at Regina on Wednesday, September 28. There was a good attendance of ministers, but a very small representation of elders. Several suggestions of Rev. Dr. Robertson for the re-arrangement of fields occupied considerable time and attention. A committee was appointed to visit the Buffalo Lake field and report to the Presbytery the division suggested. The changes in the Presbytery are as follows:—

(1) Glen Adelaide was discontinued from the Green Valley field and united with the stations west. This field will be made up of little Moose Mountain, Fletchford, Highview and Glen Adelaide, and will be known as the Highview mission field.

(2) That Wawota, Rosedale, Fairmeade, Brookside and South Church of Earlswood form a field with three preaching stations, that a central site be selected for South Church, Brookside and part of Fairmeade, and in the meantime Rosedale and Wawota schools be occupied. This field will be known as the Fairmeade mission field.

(3) That Wapella, North Church of Earlswood and Red Jacket be constituted a mission for ordained supply. This field will be called Wapella.

(4) That Hillburn, Rocanville, Carnoustie, Fernside and New Cambridge be constituted a mission to be called the Hillburn mission field.

(5) That Welwyn, New Hastings and Fleming be constituted a field for ordained supply, and will be called the Fleming mission field.

(6) That Montgomery, Poplar Grove and South part of Whitehead field constitute a student's field, and will be called the Poplar Grove field. These changes go into effect on Oct. 1st.

The Presbytery discussed at some length "religious instruction" in schools, and agreed to the following:—That the Presbytery recommend all its ministers and missionaries to co-operate with the ministers of other denominations in the bounds of our Presbytery to take advantage of the School Ordinance for religious education to the extent of securing the

Sure—Safe—Quick—and Harmless!

A TWENTY-YEARS' CASE.

P. A. Bottom, of Cookshire, Quebec, said: "I suffered from catarrh for twenty years or more. My case was so bad that my breath was disgusting to myself. During all that time I had tried everything that claimed to cure or relieve catarrh. None did me any good until I used Dr. Agnew's Catarrhal Powder. I got relief after the very first application. It cured me completely, and quickly, and I do highly recommend this great remedy."

A SUPPOSED INCURABLE CASE.

Mrs. Geo. Graves, of Inverell, writes: "My daughter, aged thirteen, was greatly afflicted for four years with catarrh in its worst form. We used all kinds of cures and doctored with the most skillful physicians for over three years, but to no avail. I was recommended to try Dr. Agnew's Catarrhal Powder. I did so, and was astonished at the rapid progress she made towards recovery, and when but two bottles were used she was completely cured. I feel it my duty to give this honest testimony to the public."

DR. AGNEW'S CURE FOR THE HEART—Gives relief in most dangerous cases of heart trouble in 30 minutes.

DR. AGNEW'S OINTMENT—The quickest Pile and Eczema cure before the public to-day.

DR. AGNEW'S PILLS—For Constipation and Biliousness—small pills—small doses. 25 cents.

A TEN-YEARS' CASE.

Henry W. Farnis, an employee of the Great Northern Telegraph Company, at Brampton, says of Dr. Agnew's Catarrhal Powder: "I was greatly troubled with catarrh in the throat for over ten years. I had special treatment by numerous specialists at that trouble, but got no lasting benefit. I was induced to try Dr. Agnew's Catarrhal Powder. One application gave me great relief and four bottles completely cured me."

PUBLIC MEN GIVE TESTIMONY.

Testimony like this quoted here is backed up by recommendations over their own signatures of such prominent people as Bishop Sweetman, Toronto; Rev. Dr. Withrow, Toronto; Rev. Munro Fraser, D.D., Hamilton; the Hon. David Mills, Minister of Justice, Ottawa; Robert Bell, M.P., Henry Carzell, M.P., Henry Bonfield, M.P., James H. McCreath, warden Kingston Penitentiary, and hundreds more.

OUR OTTAWA LETTER

THE FUTURE OF CANADA'S NORTHERN GOLD FIELDS

Canada's Opportunity—A Good Trade Barometer—The Quebec Conference and the Yukon Liquor Controversy.

(From Our Own Correspondent.)

Ottawa, Oct. 1. It would be difficult to find a better illustration of the utter unreliability of alleged "news" items from the Klondyke than has been given this week in connection with the alleged irregularities of the regulation of liquor traffic in that district. The "news" item, which was disseminated by the member of the N. W. T. Executive, who had been sent by the Territorial Government into the gold district for the purpose of looking after their interests in the regulating of the liquor traffic, reported the result of his mission to the Assembly. In the course of his report he stated that Major Walsh, the Federal Commissioner, had interfered with his mission in every way, had obstructed the administration of the law and had, as a result introduced a reign of free whisky, and all law and order had been set at defiance, starting a story that Mr. Bailey, present that Premier Haultain declared from his seat in the House, and others, that if the Major could not be proceeded against under the criminal code, he would feel it his duty to have him impeached next Session at the bar of the House of Commons.

THE MAJOR'S SPEECH. The next day a Brockville dispatch gives Major Walsh's side of the story, and presents the situation in an entirely different light, showing that Mr. Bailey had deliberately transgressed the regulations after a fair warning from the Major, whose authority no one else questions, and that whatever trouble and confusion had arisen in the matter was entirely due to the ill-considered action of the representative of the Territorial Government. As to the threat of impeachment the ex Commissioner evidently seriously considered it worthy of notice.

There is no intention or desire here to express any opinion upon the merits of this controversy; it is a question of the limitations of authority which can be settled by experts. The purpose in calling attention to the incident is to illustrate how absolutely worthless, uncorroborated stories from that far off section must be, when two well known and thoroughly responsible public men, speaking in their official capacities, give such totally different versions of the same story.

THE QUEBEC CONFERENCE. The Quebec Conference is once more under way but this week's deliberations, according to all accounts have not resulted in any definite conclusions being arrived at. The proceedings outside of the Conference Chamber are apparently more interesting than those which are held inside. Social events that have marked this week have been of unusual brilliancy. The unveiling of the Champlain monument on Wednesday was an imposing event of historic significance, and a series of social entertainments, vice regal and otherwise, has kept the old city gay.

The representatives of the various and varied interests likely to be affected by the deliberations, are arriving on every train. The most important during the past few days were the Premier of Ontario and his cabinet, Hon. G. W. Ross, the Provincial Minister, have gone down on behalf of Ontario lumber interests and they will no doubt make it clear to the British Commissioners that the Province is not prepared to make concessions to the Michigan lumbermen without an ample quid pro quo. The manufacturing interests of the Dominion are being ably represented by Hon. A. Clarke Wallace, ex Controller of Customs, who is at the Ancient Capital as the accredited representative of the Manufacturers Association, and numerous other delegations from both countries are closely watching the proceedings and keeping their respective representatives thoroughly posted from their individual stand points.

A GOOD TRADE BAROMETER.

No truer indication of trade can be found than the amount of business handled by the railways. During the last three or four weeks there has been a great increase in the freight traffic between Eastern Canada and the Pacific coast, the total being away ahead of the same season last year. Business on the coast was never so good according to the reports of the representatives of the Eastern houses, who are returning from their semi annual Western trips. In dry goods, household furniture and certain lines of

What is Scott's Emulsion?

It is a strengthening food and tonic, remarkable in its flesh-forming properties. It contains Cod-Liver Oil emulsified or partially digested, combined with the well-known and highly prized Hypophosphites of Lime and Soda, so that their potency is materially increased.

What Will It Do?

It will arrest loss of flesh and restore to a normal condition the infant, the child and the adult. It will enrich the blood of the anemic; will stop the cough, heal the irritation of the throat and lungs, and cure incipient consumption. We make this statement because the experience of twenty-five years has proven it in tens of thousands of cases. Be sure you get SCOTT'S Emulsion, and, \$1.00, all druggists.

SCOTT & BOWNE, Chemists, Toronto

eatables, the demand is greatly in excess of previous seasons, while the indications for the miners outfitting trade during the coming winter would appear to indicate an expectation of even a greater rush than last season. Owing to the partial failure of the salmon harvest the returning freight from the West is somewhat below the average but this is a comparatively small matter in the grand total of business being done.

It is satisfactory to find that the years business so far shows a substantial increase to both of the great trunk lines, the total business to September 14th, being \$23,632,235 as against \$20,755,717 an increase of \$2,876,518.

CANADA'S OPPORTUNITY.

The Governor General's address at the opening of the Ottawa Exhibition may be taken as an indication of the character that he will give Canada upon his return to the Old Country. Lord Aberdeen's personal faith in the future of the Dominion is eloquently shown in the manner in which he has invested his own money in British Columbia and the result of his recent trip to his great gold fields in the West appears to have still further strengthened his original favorable opinion. His Excellency's estimates of the capabilities of the country to produce every variety of natural supplies and the report of the Hon. Minister of Agriculture who followed him on the program, to the great markets awaiting these products in the old land combined to present as splendid an outlook for Canada's trade as the most exacting could desire to have offered them.

THE FUTURE OF THE YUKON.

An interesting visitor to the capital this week has been Mr. E. G. Woodford, formerly the State Engineer of the Transvaal Republic, who is on his way to England after a professional visit to Dawson City. There are few men better qualified to speak upon the indications for the future of the Canadian gold fields, and Mr. Woodford's opinion is therefore particularly valuable. He is very enthusiastic over the prospect of permanence in the mining industries of the far North West, giving as his emphatic belief that there is gold bearing quartz under the surface in the Yukon which will make it of lasting value. He states further that beside the quartz mining there are miles and miles of territory which can only be worked by costly equipment and operating with hydraulic machinery and his report to English capitalists on these lines will undoubtedly have a splendid effect upon the future of the Yukon.

FREIGHT RATES.

Reference has already been made in these letters to the concessions secured by the Government from the Canadian Pacific Railway when the Crow's Nest Pass railway charter was granted, and as the season progresses the intrinsic value of these concessions become more and more apparent. Of last year's crop, the railway earned \$200,000 in freight, upon which one and one-half cents reduction of freight rates would have meant over \$200,000; this year the indications are that the grain carried will be at least fifty per cent. of an increase on last year, which means, now that the first portion of one and one-half cents per bushel is in force, that for this crop alone the farmers will save over \$200,000. Next year another one and one-half cents is to be taken off, so that even if the crop were not larger the saving would be \$300,000. As, however, the output is rapidly increasing each year it is not too much to expect that in a few years the farmers of the West will be saving a million dollars annually in cash through this concession secured for them from the railway by the Government.

ANOTHER BIG CONCESSION.

Another feature of the charter, which is only secondary to that just mentioned, is the clause which provides for the right of way through the Pass for all future competitors, and already this is bearing fruit, for a charter is now in existence, granted to the Manitoba & Pacific Railway Company, which proposes to run a line from Portage la Prairie through Belmont and on to Lethbridge, where it will strike the Crow's Nest Pass Railway. The future of this section is assured and its possibilities are simply incalculable. Nothing has retarded the development of the West more than the fact that the railway monopoly and nothing will help on its future rapid development so much as free access, untrammelled by exacting restrictions, to all points where healthy competitive business can be secured.

IT IS WORTH WHILE ALSO TO REMEMBER THAT

the railway other concession secured by the Laurier Government at the cost of \$11,000 a mile bonus, instead of what would have undoubtedly been a \$25,000 a mile bonus without any compensating concessions, as had been agreed upon by Sir Charles Tupper.

A HOUSE DIVIDED AGAINST ITSELF.

Rabid partisan papers are always in danger of making themselves foolish by careless editing which allows facts to creep into their news columns that are at variance with the views expressed editorially. A few days ago, for instance, a western paper quotes a certain reverend gentleman who tells in pathetic language of his misfortunes and woes on the Teslin Lake route, and adds editorially that the Stikine River route to the Klondyke receives a "bad black eye" in consequence.

IN THE NEWS COLUMNS OF THE VERY SAME

issue of the same paper appears an expert report from Mr. Coste, chief engineer of the Public Works Department, who "has been engaged looking over the Stikine-Teslin Lake route, the practicability of which he affirms, etc." The editor-in-chief should let his news editor look over advance proofs of editorial matter that his facts may be made to agree therewith.

REGISTRAR, BUT NOT OF MINES.

A number of papers still persist in referring to Mr. F. C. Wade as the "Registrar of Mines" in the Yukon, and quote the Canadian Gazette as stating that he has been appointed "Registrar of the Yukon district and Crown Attorney." The latter is correct, and the former is totally inaccurate. The registrarship is a legal position in a civil court similar to that of the clerk of the court in a criminal court, and this is the position held by Mr. Wade. He has had no more to do with the work that would appertain to a registrar of mines than the clerk of the court in any other part of Canada would have to do with the work of a county or city registrar. How it is that newspapers that are generally well informed, can so persistently be in error on a simple matter like this is not easy to understand.

ALL THEIR TROUBLE DISAPPEARING.

The Opposition of the Local Legislature ought to be in a supremely happy

frame of mind to-day for its two great grievances, the two crying injustices that were making life unbearable, have, in the one case ceased to exist altogether and in the other to be so greatly modified as to be practically removed. The full bench of judges in the Court of Appeals has declared with startling unanimity that there is not and never should have been a question as to the right of election constables to vote, thus removing one of Mr. Whitney's troubles. The election trial in South Ontario proved beyond all doubt that Hon. John Dwyer would never have been defeated by fair means and thus their second trouble, of having Ministers without seats, is a long way towards being remedied.

A PUERILE POLICY.

Speaking seriously though, it surely must occur to the Conservative members of the Local House as it certainly has to the vast majority of their supporters outside, and their policy upon both these subjects, in fact their entire behavior since the poll was declared on the first of last March has been puerile, unadvised, and unbecomingly childish. But, while this is so universally recognised by the rank and file it does take one's breath away to find the Mail Empire referring to the whole business as a "subordinate question." It passes the imagination of man to even guess the state of mind that a group of real supporters would bring Mr. Whitney to when a subordinate question "has got him so fearfully excited."

THIS DOES NOT LOOK LIKE CONTROL.

The time honored and hoary headed allegation that the C. P. R. controls the Government and as a consequence owns the country has received a serious body blow from the recent arrangement between the Government and the Grand Trunk Railway by which the latter will handle the Intercolonial west bound freight. The late administration had entered into an agreement which compelled all the Intercolonial west bound freight to pass into the hands of the C. P. R. at St. John's, N. B., but when that arrangement terminated a few weeks ago, the Government dealt with the matter of a renewal upon straight business lines regarding the business to the Company offering the most favorable terms which, as it happens was the G. T. R. It is anticipated that the new arrangement will very greatly increase the business of the Government road, in fact, Mr. Reeve, the General Traffic Manager of the G. T. R. estimates that it will double its revenue, thus proving one more link in the chain of improved conditions that are confidently expected to eventually make this road a paying instead of a losing property. Incidentally it may be pointed out that this is a further exemplification of the foresight and wisdom of the Government in extending the Intercolonial to Montreal.

Women are not the only ones who are sensitive about their ages. A man doesn't like to be told that he is getting old. Health keeps a man young. It doesn't make any difference if he has lived eighty years or if he has lived twenty years, he will be hale and hearty and won't look within twenty years as old as he is. Good digestion and rich red blood make people look youthful. Dr. Pierce's Golden Medical Discovery makes rich red blood. It makes health in the right way. It works according to the right theory, and in 21 years of practice, it has proved that the theory is absolutely correct. It begins at the beginning, begins by putting the stomach, liver and bowels into perfect order, but it begins its good work on the blood before it finishes with the digestive system. It searches out disease germs which never leave the body and keep them out of the body. All druggists keep the "Discovery."

"WILL DIE BEFORE DAYLIGHT."

Would Have Been Her Answer to Your Query: "When?" But Dr. Agnew's Cure for the Heart Snapped the Death Strings.

Mrs. B., 186 Queen Street W., Toronto, gives this unsolicited testimony: "For a number of years I had been a great sufferer from heart troubles. I had frequent sensations, palpitation, neuralgia thumping, was very easily fatigued. I was induced to try Dr. Agnew's Cure for the Heart when I had despaired living through the night. The benefit was instantaneous. I have taken five bottles and no heart troubles have troubled me since. I am now able to do all my work and will be glad to communicate with any one desiring it." Sold by W. W. Bole.

NOTICE TO STOCK-RAISERS.

Arrangements have been made by this Department whereby stockraisers and farmers in the Territories can import, under Government supervision, thoroughbred cattle, purchased from breeders in the States, at a uniform price of Five Dollars per head for transportation to nearest railroad points, including care on journey.

Particulars as to conditions under which such importing will be made may be obtained by applying to the undersigned.

By order, CHAS. W. PETERSON, Deputy Commissioner, Department of Agriculture, Regina, N.W.T., 13-16.

NOTICE.

TENDERS FOR GRADING ROAD.

Tenders will be received, addressed to the Commissioner of Public Works, Regina, up to October 10th instant, and marked "Tenders for grading road," for grading a six mile road on the road allowance between Townships 17 and 18, Range 28, west of 2nd Meridian. The grading is to be performed with the road grading machine, which will be supplied, and the contractor is to furnish all teams and men necessary to operate the machine. The road is to be graded in accordance with the provisions of the Manual of Instructions issued for the guidance of Overseers of Local Improvement Districts, and the work to be completed by November 25th proximo.

J. S. DENNIS, Deputy Commissioner, Public Works, Department of Public Works, Regina, October 1st, 1888.

NOTICE.

TENDERS FOR SUPPLYING TEAMS FOR GRADING.

Tenders will be received, addressed to the Commissioner of Public Works, Regina, and marked "Tenders for supplying teams," up to October 10th instant, for supplying four heavy teams for use in operating road grading machine in grading roads in the vicinity of Moose Jaw. The contractor will be expected to supply good heavy teams, and his tender will include the cost of the keep of such teams and drivers during the time they are employed. The price quoted should be a price per day for each team and driver.

J. S. DENNIS, Deputy Commissioner, Public Works, Department of Public Works, Regina, October 1st, 1888.

HOME WORK FOR FAMILIES.

We want a number of families to do work for us at home, whole or spare time. The work we send our workers is quickly and easily done, and returned by parcel post as finished. Good money made at home. For particulars ready to commence send name and address. THE STANDARD SUPPLY CO., Dept. B, LONDON, ONT.

King of the Meadow

Hay-Making Time is Here! Harvesting will soon follow and our farmers want the best which is in the end the cheapest. This we are prepared to give them as we handle the "McCormick" implements which fill the bill. A SOUTHERN CYCLONE.

WIND BLOWING FROM FIFTY TO SEVENTY MILES AN HOUR.

The Rice Crop Almost a Total Loss—Shipping Badly Damaged—Great Loss of Life.

Savannah, Ga., Oct. 2.—For eighteen hours past Savannah has been in the grasp of a western cyclone. During that time the wind blew steadily from fifty to seventy miles an hour. While the city escaped with comparatively little damage, the loss of property among the sea islands of Georgia and South Carolina coasts is believed to be heavy. For miles in every direction around Savannah the lowlands along the rivers are submerged. Only one fatality has so far been reported—the drowning of a negro while attempting to reach the mainland from a small island near Thunderbolt—but heavy loss of life is feared from the South Carolina sea islands, where such fearful loss of life occurred during the great tidal storm of 1893. The conditions are similar to those during that storm. Owing to the submerged country and the isolated location of the islands, no news can be had from them until the water subsides. For eight miles south of Savannah the entire country is a lake, with only the hummocks visible. At noon the water was eight feet above the highest tide. Driven on shore by the easterly storm, it filled upon the islands, swept over the banks and dams, carrying away the remnant of the rice crop that was left by the August storm that had not been gathered, and wiping out of farm crops. The loss to rice growers alone will be from \$500,000 to \$750,000. Of the entire rice crop along the Savannah river, valued at \$250,000, all but 15 per cent was lost in this and the preceding storm. The damage to shipping is considerable. The wharves at the quarantine station at the entrance to the river here was partially carried away. The quarantine officer and his family and servants were rescued early in the day by a tug. Four vessels which were at anchor at the station were torn from their moorings and driven into the marshes. Three of these were the British schooner *Sydney*, from St. John, N. B.; the United States schooner *Millville*, from Millville, N. C.; and the Italian bark *Franklin*. How badly these vessels are damaged is unknown. No news has been received from Tybee since early in the morning, and nothing is known of the damage there. The extent to which the railroad suffered is not fully known. Telegraph wires are down, and the condition of the railroad tracks is unknown. The telephone, police, light and fire alarm wires are down and the city is in darkness.

MINERS HOLD UP A TRAIN

White Men at Sorrento, Ill., Resist Importation of Negroes.

St. Louis, Mo., Sept. 30.—The sheriff at Pana, Ill., where there is trouble between imported negroes and union miners, telegraphed Governor Tanner at 5 a. m. today to send 300 rifles, to have the weapons at Pana by 7 a. m. The governor said the request would not be complied with. According to information received by the local miners' union one hundred negroes are on the way to Sorrento from Mercer county, Ill., to take union miners' places in the coal mines. Immediately upon receipt of this information an alarm was sent to neighboring towns for the miners of that place are determined that the blacks shall not gain a foothold there. Three hundred and fifty armed white miners have already arrived at Sorrento.

Tower Hill, W. Va., Sept. 30.—Three hundred striking union miners from Pana today held up a special train on the Ohio and Southwest, which was carrying fifty Washington, Ind., negro miners to Pana to take the place of union miners. The negroes were taken from the cars and compelled to walk back to Tower Hill, where they were locked in the depot until one o'clock tonight. At that hour the negroes were placed on an east bound train and taken to Indiana at the expense of the union. The hold up of the train was perfectly executed and was a bold stroke on the part of the miners. Sheriff Coburn's forces of rescuers had not arrived at a late hour.

The militia paraded the business streets of Pana tonight.

Attacked by a Lion.

Butte, Mont., Oct. 2.—Walter Blanchard, better known as Zeek Walters, the animal trainer with Lehman Bros. circus, was attacked in the lion cage by one of the lions who felled him with a blow on the head with his paw and continued the attack as he lay prostrate. Walters grabbed one of the bars of the cage and drew himself to his feet, at the same time attempting to fight off the brute. Almost blinded by blood from the wounds in his head Walters dragged himself to the door at the rear of the cage. Unfastening it he leaped to the street and fell unconscious to the ground, the door slamming shut after his exit, thus preventing the escape of the animals. Walters' back is terribly lacerated. The doctors say he cannot live.

The Philippine Republic.

Manila, Sept. 29.—At Malolos today Aguinaldo will formally inaugurate the republic of the Philippines by a great celebration. Invitations have been extended to the principal army officers and newspaper correspondents here. A thousand natives will attend. The dictator will review his army and will probably issue proclamations to the nations of the world setting forth the intentions of his government.

The transport *Arizona*, having on board navy recruits and an immense lot of mail, arrived today. This is the first home mail for several months. There has been much adverse comment over the lack of mail facilities, and the army of occupation is rejoicing that letters have arrived at last.

LUCHINI THE ASSASSIN.

Well Treated in Prison—The Punishment Which Awaits Him.

London, Oct. 1.—The extraordinary lax treatment of the Anarchist assassin of the Empress of Austria, the Italian Luchini, in the prison of St. Antonio, Geneva, Switzerland, is causing much remark. He is allowed wine, cigars, letters and newspapers, spends money and gives newspaper interviews. In fact, he is treated like the lion of the prison. The assassin's trial has been fixed for the first week in November. He will be condemned to solitary confinement for life. Only one man has hitherto undergone this punishment, which has more terrors than capital punishment. The prisoner is confined in an underground cell, into which no sunshine ever penetrates. He is not allowed a bed, must sleep on the ground, and is only permitted to take exercise once a week in the prison yard.

A SEA OF FLAMES.

Northern Wisconsin Forests Are in a Blaze.

St. Paul, Sept. 29.—Many square miles of northern Wisconsin is one great sea of flames from forest fires. The loss to lumbermen is enormous, millions of feet of pine being destroyed every hour. The city of Barron, on the "Soo" line, is entirely surrounded by fire. Greenwood, a town between St. Paul and Chippewa Falls, has been saved after twelve hours' hard work by the citizens. It was reported here this afternoon that both towns had been destroyed, but this was an error. Large quantities of grain and farm machinery, as well as considerable stock, has been burned. The fire departments of Chippewa Falls, Eau Claire and Menomonie have been called upon for help from nearly every small town in the fire district. Late to-night word came that Cumberland, 1,500 population; Clayton and Alameda, 300 population each; and Washburn, 200 population, have been burned, and Clear Lake nearly destroyed. No loss of life is yet reported. The property loss at Cumberland is \$225,000. Rain came in time to save part of the town. Five children were burned to death in a farm house near Cumberland.

PACIFIC COAST NEWS.

Vancouver, Oct. 2.—The steamer *Fastnet* arrived from the north with half a million in gold on board. There was a small fire on the wharf when the steamer left. New strikes are reported on Dominion Creek, Yukon navigation is closed.

Vancouver, Oct. 2.—H. M. Kersey, general manager of the Yukon Steamship company, arrived here today with \$50,000 in gold nuggets for exhibition purposes. J. B. Rhodes, of Portland, Ore., bought \$60,000 in dust and W. Caldwell, of Portland, \$80,000.

Vancouver, Oct. 2.—The C. P. R. will establish another trans-Pacific line. The steamers *Tartar* and *Athenian*, of over 4,500 tons, will run between Vancouver and Vladivostok, the terminal of the Trans-Canadian line and Trans-Asian line respectively. The *Athenian* will sail first, leaving here with lumber and rails, for the Siberian line, and then proceeding to Seattle and Portland, where grain will probably be placed aboard for famine-stricken Russians.

Bankers have decided to establish a clearing house at Vancouver, business thoroughly warranting the step.

The mining outlook in this province is better than ever, new deals being reported weekly. The Cariboo Hydraulic Co. has just made a clean up of \$20,000, while today a cheque for \$24,000 was paid over by J. B. MacLaren for a controlling interest in the Providence mine, Harrison Lake.

An important discovery has been made of auriferous conglomerates on Bear Lake, north of Tlaque Lake, by William MacKinnon, engineer in charge of a party sent to the upper Skeena river, by Charles F. Law, of this city. The deposits are ancient placers afterwards consolidated, and tilted at high angles, and by volcanic disturbances. The gold is quite free, and can be panned from the conglomerates when crushed. These deposits are similar to those of the Black Hills in Dakota, and the banked reefs of the Rand district, South Africa.

Lord Kitchener's Report.

London, Sept. 30.—The Gazette today prints Lord Kitchener's report of the Omdurman expedition. The Sirdar praises his subordinates, naming several hundred of them and warmly commends the commissary, medical and transport departments and the "excellent" rations which were always provided and kept the men strong and fit to endure the hardships of an arduous campaign, enabling them at a critical moment to support exceptional fatigue and continuous march and fighting for fourteen hours during the height of the Sudan summer.

Object to the Ruling.

Montreal, Sept. 28.—Many Catholics are much excited over the order from the colonial office forbidding British subjects to wear foreign orders and decorations without the permission of the Queen. Ex-Mayor Peangrand, who is a member of the French legion of honor, says he will continue to wear the French and Papal decorations regardless of the ruling. L. O. David, city clerk, who has been honored by the French Academy, says no doubt the imperial authorities can legally forbid the wearing of decorations, but he cannot see the expediency. J. F. Perrault, Lieut. Col. Hughes, Recorder De Montigny and others who possess foreign orders, speak in a similar strain. It will be remembered that the point was raised by Sir Charles Tupper in the commons during the session of 1897 in reference to Sir Wilfrid Laurier's honors from France, and the ruling was recently handed out by the colonial office.

Some men are too stubborn to acknowledge the corn until you step on their toes.

RESULT OF THE VOTES.

CAST AT THE PROHIBITION PLEBISCITE THURSDAY.

All the Large Cities Reject Prohibition But Maritime Provinces Favor It.

Toronto, Sept. 29.—The net result of today's plebiscite is to give a majority for prohibition of the vote cast throughout the Dominion, but the vote cast was only a small percentage of the total possible vote. The majority for prohibition is chiefly in the maritime provinces and probably Manitoba. If Ontario and Quebec are taken together there is probably a majority against and this makes any legislation out of the question, even if the light vote did not do so.

It is not too much to say that the Prohibitionists of Toronto, in fact, of Ontario generally, received a severe setback by the result in this province, and particularly in this city, of to-day's voting. It had been confidently predicted that the result of 1894, when a majority in favor of prohibition of 2,500 was given in this city, and of 80,000 in the province, would be sustained at least and probably improved upon. It would seem, however, that the business interests of the larger communities have been aroused to the commercial risks of a prohibition law, and it is a remarkable fact that only one city in Ontario, namely Brantford, has on this occasion given a majority in favor of prohibition. In 1894 thirteen cities of Ontario gave a majority in favor of prohibition, amounting to about 8,400. To-day the same cities gave a majority against prohibition of 8,200, Toronto contributing 3,250 of that figure. The maritime provinces have gone overwhelmingly in favor of prohibition, the majorities in New Brunswick and Nova Scotia being very large. Quebec offsets this pretty well, with a majority of 30,000 against.

Ontario's estimated majority against prohibition is from five to ten thousand, but returns are still very meagre from many localities and this is not very certain. It is thought that when the rest has been heard from the net result will leave a balance in favor of prohibition, something less than ten thousand, but this figure may be increased to 20,000. Anti-prohibitionists of Toronto are very well satisfied with the result, but leaders of the prohibition party speak hopefully, and say this is but the beginning of the battle, which must be waged till they win. There was no speech-making by either side.

AN OTTAWA ESTIMATE.

Ottawa, Sept. 29.—The result in Ottawa was a keen disappointment to the prohibitionists, who frankly admit that the cause has received a setback which removes it from the sphere of practical politics for the present. They concede that it would be useless to enact and try to enforce a prohibitory law while the large cities remain hostile to the principle. For the adverse majority of 700, the Prohibitionists of the city in the lower town is largely responsible. The situation at 11 o'clock appears to be as follows: Nova Scotia, 18,000 for; New Brunswick, 15,000; Prince Edward Island, 3,000; maritime provinces 38,000 for; Quebec probably the same number against. In Ontario there are heavy prohibitionist losses; all the cities except Brantford are against; the medium sized towns are about evenly divided. The country districts go prohibition heavily, probably 8,000 or 10,000 in Ontario.

One of the most interesting features of the vote was the different attitude of the cities of Ontario from that taken in the provincial plebiscite of 1894. Four years ago they gave a majority for prohibition of 8,246; to-day they gave a total majority against prohibition of 8,160. The following shows the results of the two plebiscites for the cities of Ontario. In cases of where the full figures are not to hand the majority for or against is given, leaving the net result the same.

	For	Ag't.	For	Ag't.
Bellefleur	1894	1894	1898	1898
Belleville	985	385	—	72
Brantford	1705	694	152	1142

Windsor	—	671	779	—
Total	29237	20991	18441	26784

Majority for in 1894, 8,246.
Majority against in 1898, 8,343.

RESULT IN MONTREAL.

Montreal, Sept. 29.—MONTREAL gave a decided vote against prohibition. In five city divisions and Hochelaga Maisonneuve, which are suburbs, there is total majority of 11,878 in opposition. The great English speaking division of St. Antoine alone gave a majority in favor, and that was a small one of 194. St. Louis is also English, but with larger French population than St. Antoine, and it was against. So was St. Lawrence, where the population is usually divided. The French division of St. Michel was seemingly opposed. The figures are as follows:

St. Antoine—1,414 for, 1,220 against.
St. James—439 for, 303 against.
St. Lawrence—1,036 for, 2,359 against.
St. Marye—455 for, 2,621 against.
Hochelaga—1,345 for, 2,553 against.
Maisonneuve—543 for, 3,154 against.
Total for 6,341; against 18,219.
St. Antoine gave a majority of 194 in favor of prohibition, but all other divisions against, as follows:
St. Anne, 212.
St. James, 2,592.
St. Lawrence, 1,283.
St. Marye, 2,165.
Hochelaga, 1,208.
Maisonneuve, 4,611.
Total majority for, 194.
Total majority against, 12,072.
Total against prohibition, 11,878.
The prohibitionists were well organized in the English divisions, but not

at all in most of the others. Every saloon was wide open, and old a rushing trade. The Citizens' League detectives have made out cases against three well known saloon-keepers, charged with violating the Dominion election act by selling liquor during the taking of the vote.

SLOW RETURNS.

Revised Figures Showing the Plebiscite Vote in the Cities.

Toronto, Sept. 29.—The following revised returns show the results in the various cities of Canada. Majorities are given against prohibition in every case save St. John, Halifax, Winnipeg and Brantford:

Cities.	Majority	For.	Against.
Montreal	11878	—	—
Toronto	3254	—	—
Quebec	6114	—	—
Hamilton	1532	—	—
Ottawa	707	—	—

Windsor	649	—	—
Belleville	72	—	—
St. Catharines	465	—	—
Chatham	153	—	—

CANADIAN NEWS.

Halifax, Sept. 29.—The steamer *Siberian*, which arrived today from Liverpool, brought 143 British marines for the British squadron on the Pacific coast. The men left for the far west this afternoon.

Ottawa, Sept. 29.—William Kingsford, the historian of Canada, died at his residence here today, aged 79 years. He had completed a history of Canada to 1841.

Brampton, Sept. 29.—John Hamilton, a former reeve of Shelburne, an assizes yesterday, was sentenced to two years in the penitentiary for perjury in connection with arson cases of some time since.

London, Sept. 29.—The grand jury has returned a true bill for murder against W. D. Emerson, the actor who shot Manager James Tuttle on the stage of the music hall last April. The corner's jury decided that Emerson had been acting under great provocation and found a verdict of manslaughter, but with this the grand jury did not agree.

Victoria, B.C., Sept. 29.—A special from Alberni says the head of a white boy was found by Indians floating down the Alberni canal in a boat.

The schooner *Otto* reached Uclulet under seizure for being within the prescribed zone. She has eight hundred skins.

Ottawa, Sept. 29.—Comptroller White, N. W. M. P., has been notified that Constable Locke fatally shot Robert Moore at Yorkton, while the latter was resisting arrest on a warrant issued by a local justice of the peace. The message says that Moore fired first and that the officer returned the fire killing Moore.

St. Catharines, Sept. 29.—The city council last night voted \$500 to aid the sufferers by Monday's tornado.

Montreal, Sept. 29.—The Dominion liner *Labrador*, which left Liverpool Sept. 22, is reported inward at 5 a. m. today at Martin River. She is due to reach Quebec at midnight and Montreal Friday afternoon. This is the fastest passage through the St. Lawrence yet made except that made by the Canada of the same line.

St. Catharines, Sept. 28.—Flags are flying at half-mast at Merrittton today in memory of those killed in Monday's disaster. Hundreds of visitors went over the devastated district. Repairs are in progress and before long all outward signs of disaster will have disappeared. No further deaths yet. James McCarthy is very low and Miss Jennie Nester and Maud O'Neill in a critical condition. All the others injured are now expected to recover.

Winnipeg, Sept. 30.—Rev. John Stewart, a supernumerary minister of the Methodist church, who has been with his family residing in Winnipeg for the past three or four years, died suddenly at 12.30 o'clock last night. The deceased has been suffering from heart disease for some years.

Criminal Carelessness.

Brownville, Pa., Sept. 29.—The verdict rendered in the Empire mine disaster, Sept. 23, was: "Had the proper mine officials, whose duty it was to remove the danger that was known to exist, fulfilled their duty, accident would not have happened."

Hypnotic Seduction.

St. Paul, Sept. 29.—Edna Smith, a high school girl of fifteen, and daughter of W. F. Smith, has been spirited away from home, and is thought to be at Prairieville, Mich., her former home. Rev. G. V. Pixley, pastor of a Baptist church at Prairieville, is said to have been the one who took her away, and hypnotic influence is alleged. The girl is heiress to a small property in western New York, and there is a dispute over her custody.

Fatal Fire in a Mine.

Wilkesbarre, Pa., Oct. 2.—Four miners were burned to death in the Midvale slope of the Lehigh Valley Coal company's mine at Midvale yesterday. A fire broke out in the slope about noon. At the time there were 150 men in the mine. All were gotten out but four.

A man who has no enemies has but few friends.

CANADIAN NOTES.

Montreal, Sept. 28.—By the terms of the will of the late Michael McCready, of Montreal, his brother Bernard, of Ottawa, comes into a fortune of \$100,000. The deceased left no family and willed the whole of his estate to his brother save a small annuity.

Montreal, Sept. 28.—Jean Baptiste Guillemain, convicted of the murder of Jean Baptiste Laplante, his uncle, entered St. Vincent de Paul penitentiary yesterday to serve a life sentence at the age of 20. He was to have been hanged on Friday on a unanimous verdict of the jury which tried him and found him guilty, but his sentence was commuted.

Ottawa, Sept. 28.—John Doyle, of Ferguson's Falls, near Perth, who has been at Dawson for two years, says the yarn about official corruption are the result of jealousy. He says any one who charges Fawcett with crookedness does not know what he is talking about.

Montreal, Sept. 28.—Arrangements for taking over most of the breweries in this district by an English syndicate are almost completed and a well known brewer leaves for England in a few days to close the deal. The breweries in the deal are Davies', the Canadian Union, Ekers', Montreal and Star. Molson's and Dow's breweries will remain outside the combine.

Brisbane, Queensland, Sept. 28.—Hon. Joseph Byrnes, premier of Queensland, is dead. He was born here in 1860, and was formerly attorney-general and solicitor-general of Queensland.

Woodstock, Sept. 28.—Lamuel N. Middleton, alias Alex. McDonald, the alleged railway swindler and bigamist, was placed on trial this morning in the county judges' criminal court for Oxford on charges of bigamy and false pretences. He was found guilty and sentenced to seven years' imprisonment.

Health Experts.

Ottawa, Sept. 27.—The twenty-sixth annual meeting of the American Health association opened here this morning. Representatives from the United States, Mexico and Canada were present. A series of papers on the disposal of sewage brought out a number of different plans. The deepest interest was manifested in questions in relation to typhoid fever, tuberculosis, and all infectious diseases. Dr. Bryce, in a report, recommended that school children should be examined immediately on their reporting sick, and a swab from their throat be sent to the provincial laboratory for inspection. The child is quarantined in the meantime, and if the swab is found diseased, the patient is sent at once to the hospital.

Terrific Storms on the Coast.

Vancouver, Sept. 27.—The high gale of last night and today was almost unprecedented hereabouts. The wind storm was terrific and more than one house on the hill side shows signs of the fury of the gale. A big wave was running in the gulf, fishing boats ran into the Fraser last night and notwithstanding reports on the streets today that several had been capsized and the occupants lost, no confirmation of the rumor could be obtained.

Heroic Ida Smith.

St. Catharines, Sept. 30.—The public school board has decided to show their appreciation of the heroism displayed by Miss Ida Smith, teacher of the school that was demolished by Monday's tornado, by presenting her with a medal and recommending her for recognition to the Royal Humane Society of Canada. The resolution passed states that through Miss Smith's heroism and presence of mind the lives of many children were saved. The young woman's noble conduct has been the subject of much comment since Monday.

Distress Among Fishermen.

St. John's, Nfld., Sept. 27.—The British royal commissioners, Sir John Bramston, Sir James Erskine, and Lord Westmesth, appointed to investigate the French treaty rights in Newfoundland, have completed their inquiry into the operation of the French treaties on the north and east coasts of the island and arrived at Bonne Bay yesterday on the colonial cruiser *Friend*. At Bonne Bay they will begin an investigation of the trouble arising in connection with the lobster and herring fisheries. They report that extreme distress exists among the fishermen on the north and east coast owing to the failure of the fishery.

Lord's Day Act.

St. Catharines, Sept. 28.—Police Magistrate Comfort gave a decision in the case of the *Jubilee* yacht, plying between St. Catharines and Port Dalhousie, which was brought up by the Lord's Day alliance. In reviewing the evidence the magistrate was of the opinion that as the boat was running for mere gain, and not in conjunction with any other means of transportation, he did not deem it a necessity and accordingly found the captain guilty and fined him \$20 and costs, to be paid in eight days, in default one month's imprisonment. He also fined the engineer \$1, or ten days.

Woodford's Resignation.

Saratoga, N.Y., Sept. 27.—General Stewart L. Woodford received by mail a letter from Acting Secretary of State Adee accepting the general's resignation as minister to Spain and transmitting the president's appreciation of the manner in which he had performed his mission. General Woodford sent his resignation to the president on September 20th.

ULTIMATUM TO TURKEY.

Paris, Sept. 29.—It is reliably reported that the ultimatum of the powers to Turkey regarding the island of Crete was presented to the Sultan today.

GONE TO HIS REST.

Death of Hon. Thos. F. Bayard, Former U. S. Ambassador to England.

Dedham, Mass., Sept. 28.—The Hon. Thomas F. Bayard, died at 4.30 this afternoon.

Thomas Francis Bayard was born in Wilmington, Del., Oct. 29, 1824, and was a younger son. He studied law and was admitted to the bar in 1849. When the war of the rebellion began Mr. Bayard was pursuing his profession. With the first meetings of war the people of Wilmington set about establishing means of self protection. A militia company was organized and Thomas F. Bayard was elected its first lieutenant. In June 1, 1861 the famous peace meeting of citizens was held in Dover, and Lieut. Bayard was one of the first principal speakers. He denounced the war and his remarks on that occasion have been quoted in later years as an argument against his availability as a presidential candidate. Meanwhile Mr. Bayard's popularity in his native state kept growing rapidly and in 1868 he was elected to succeed his father in the United States senate and was subsequently twice re-elected. As soon as the result of the national election of 1864 was positively known, Mr. Bayard was the first Democratic statesman invited to consult with President-elect Cleveland and it was generally understood that he was the first offered a place in the new cabinet. He finally accepted the state portfolio. At the close of Mr. Cleveland's administration Mr. Bayard returned to private life and to his legal profession. In March, 1893, Mr. Bayard was appointed ambassador to the court of St. James and served during Mr. Cleveland's second term.

QUEBEC CONFERENCE.

Reciprocity is the Most Troublesome Issue—Rehearsing Sea Fisheries.

Quebec, Sept. 27.—There seems every reason to believe it is no longer a question as to whether or not a treaty will result from the conference, but rather as to how many of the points embraced in the protocol will be disposed of. Reciprocity is the most troublesome of the issues. Some of the others are very near a satisfactory settlement, when it is believed in regard to the others, such as domestic bonding regulation, strong expressions of opinion on both sides of the border that the present system should be let alone, will govern the decision of the commissioners.

It begins to look as if the American government is prepared to go to considerable expense and much trouble to end the sailing disputes by a purchase of the Canadian rights. A decision to do this was probably arrived at long ago for when in May last the United States made an arrangement with Japan regarding sealing in North Pacific, one of the stipulations was that in the event of United States buying up Canadian sealing rights Japan should refuse registry to any vessels that might come over from Canada and try to make Japan the base of operations for the continuance of sealing. The fear of who ever was responsible for this wide-spread bit of diplomacy evidently was that Canadian sealers after selling out their rights as Canadians to participate in the capturing of seals in the Behring Sea, would go over to Japan and try to continue the industry under the Japanese flag. This information, which comes from a source of unquestioned authority, proves that the Americans have come to Quebec with the already formed purpose of buying out the seal fishery.

WAR NOTES.

Santiago, Sept. 26.—General Wood is organizing a mounted police force of Cubans for the interior.

Chicago, Sept. 26.—Anguilla, one of Aguinaldo's representatives, expressed confidence in the ability of the Filipinos to govern themselves. He denied that the insurgents are consulting with the Germans, but admitted that the Kaiser had made proposals to aid them in securing independence.

Madrid, Sept. 26.—Spain has ordered General Blanco to release all political prisoners.

London, Sept. 26.—A dispatch to the Globe from Hong Kong, published this afternoon saying it is learned from a trustworthy Filipino source that France promised to recognize the Philippine republic and it is added that negotiations on this subject are proceeding at Manila, where there are three French warships.

A Warning to Mothers.

Ottawa, Sept. 26.—Yellow fever was the principal topic at today's session of the American Health association and in the papers by Mexican delegates and report by the committee appointed to investigate it. Many points of interest were added to the fund of information now in possession of the association.

A resolution was passed stating that every possible means should be adopted to have laws enacted to prohibit the

W. W. BOLE.

The Moose Jaw Times.

FRIDAY, OCTOBER, 7, 1898.

LOCAL AND GENERAL NEWS.

The Supreme Court sits here next Tuesday.

Mrs. Richardson, of Chaplin, was in town this week.

This week the slate roof is being put on the new C. P. R. station.

R. O. Miller left for Indian Head Monday evening, and will return this week.

Wellington White has closed his brickyard for the season, and left for Banff last week.

Mrs. C. D. Fisher returned from Winnipeg Tuesday morning, after a week's visit with friends.

Mrs. Haigh returned home on Tuesday morning from Beausejour where she had been visiting friends during the past month.

Brakeman Porter, of the Prince Albert branch, got his left hand badly smashed while coupling cars, and will probably lose a finger.

The wife and family of Mr. G. B. Sharpe returned home on Tuesday morning from Virden, after spending a month with Mrs. Sharpe's parents.

The special marine trains passed through this week, one en route from the Coast to Montreal and the other from Montreal to the Coast.

A. T. Condon, general agent for the North American Life, arrived from the west on Tuesday afternoon after a very successful business trip.

Mrs. J. W. Smith, of Regina, was the guest of her sister-in-law Mrs. W. W. Hole, for several days last week. She returned home Tuesday afternoon.

Mr. Cosgrove, who left about two years ago, returned on Monday and has again joined the C. P. R. staff. At present he is temporary station agent at Caron.

The Methodist Ladies' Aid concert in Central Hall last Friday evening was largely attended. The programme was good and the gross receipts amounted to over \$600.

The first snow fall came on Sunday last to the depth of several inches in this district. Further east it was much heavier, while at North Portal and Estevan there was quite a blizzard.

The Presbyterian Ladies' Aid have arranged for a concert to be given on Oct. 28th by the Prairie City Quartette, on their return trip from the Coast. Further particulars later.

The first dance of the season under the auspices of the Brass Band will be held in Central Hall next Monday evening, Oct. 10th. Tickets may be secured from the members of the Committee.

Mr. and Mrs. L. H. McDonald left on Wednesday morning for Lethbridge, where Mr. McDonald has secured a remunerative position in the office of the president of the Alberta Railway & Coal Company.

Two little daughters of Mr. and Mrs. Jas. H. Ross were passengers on Wednesday evening's No. 2 en route home to Regina from East Kootenay, where they had spent some months with their grandparents.

A couple of pedlars were arrested at Caron last Sunday charged with stealing a C.P.R. cheque for \$1800 from a room in the Chaplin section house. They appeared before W. C. Saunders, J.P., but were dismissed.

A party of American gentlemen, consisting of Messrs. G. R. Barber, J. B. Best, E. D. Winter and S. H. Peavy, arrived yesterday afternoon from Minneapolis to spend a few days with the geese at the Shooting Box.

Mr. Hautain and Mr. Ross are this week in Northern Alberta addressing meetings at Edmonton, Wetaskiwin and Innisfail. They will probably address a meeting at Calgary on Saturday or Monday, and will return to Regina early next week.

The North-West Government are calling for tenders for supplying four heavy work teams to operate road grader in the vicinity of Moose Jaw, and also for grading six miles of road allowance between townships 17 and 18, in range 23. For further particulars see advt.

Mr. Walter A. Bowron, of the C. P. R. train service, was married to Miss Edith Snider, of Hamilton, Ont., at Fort William on Monday, Oct. 3rd, 1898. The happy couple arrived home yesterday afternoon, and have taken up their residence on High Street. Mr. Bowron's many friends extend their congratulations.

"JIM." MCKNIGHT KILLED.

Another Railroad Boy Meets a Sad and Sudden Death on the Rail.

James McKnight, a young C. P. R. employee, was suddenly called to his death on Monday last. Having spent Sunday at his home in Broadview, he was returning to Moose Jaw on a freight train in charge of Conductor Prosser. About a mile east of Indian Head, and opposite the Experimental Farm, there is a small bridge at the bottom of a steep grade, which was being filled in. The bridge gang had removed the stringers and supports from underneath the rails and had placed a danger signal to stop passing trains. Once the danger signal was seen everyone on duty did their utmost to stop the train. It was too late. The distance was so short and the grade so steep as to prevent this, and the engine, a compound Mogul, with its tender and two box cars loaded with Ogilvie's flour, was hurled into the ditch. Engineer Hinchie remained in his cab and emerged from the debris unhurt. Fireman Wilson jumped and suffered but slight injury. Mr. McKnight, prevented by some reason from either returning to the cab or jumping, was instantly crushed to death between the engine and tender. Supt. Milestone spared no expense or care in returning the body in the best condition to his parents at Broadview. The deceased was a brother-in-law of Engineer John McNeil and Conductor Art Holdsworth. The funeral took place yesterday afternoon at Broadview. The church was filled with friends of the family. Rev. Mr. Fraser, of Regina, read the Scriptures. Rev. Mr. Campbell, Presbyterian minister, delivered an address of consolation to the bereaved. Rev. Mr. Sweet, Baptist minister, of Moose Jaw, delivered an address on the life of the deceased. Rev. Mr. Dimmick made a stirring appeal to the living. The remains were laid to rest near the shore of the pretty lake beside which the young man spent his youth. Jim was an only son and the brother of seven sisters. He was the youngest of the family and had not yet passed his twentieth year. He was the favorite of the home, the community and the society in which he wrought. At the time of his death he was caretaker of the engine on which he met his fate. His life was beautiful in its love for parents and sisters, in its self-sacrifice for others' good, and above all in its rare outer and inner purity. Were he to come now with a message for his comrades it would be this: "Be ye also ready for in such an hour as ye think not the Son of Man cometh."

PROHIBITION WON.

It Carried in Every Province Excepting Quebec.—A Total Majority of 11,633.

Although it is a week since Plebiscite Day, there are yet no very complete returns from any province. The actual number of votes polled in cities and towns has been ascertained and published, but returns from many outlying sections are lacking, and the real state of the poll can not be known until the returning officers throughout the Dominion count up the ballots and make their official declarations. The following is the latest returns by provinces:—

PROVINCE.	Yes.	No.
Ontario	17,528	
Nova Scotia	17,840	
Quebec		51,290
New Brunswick	13,715	
Prince Edward Island	6,160	
Manitoba	5,069	
N. W. Territories	1,929	
British Columbia	538	
Totals	62,926	51,290

Total Dominion majority for prohibition 11,633.

Eastview.

Eastview, Oct. 6, 1898.—One of the earliest snow storms that has been known in these parts for years came Sunday. Snow fell to the depth of 5 or 6 inches and while the storm lasted it resembled more a January blizzard than a 2nd of October day. Threshing is now the order of the day in this community. The Eastview Syndicate having commenced their seasons operations on Monday last. Wheat is yielding about 25 bushels per acre, and oats about 40. The grain is a good sample and if the prices continue raising times will be good. Samuel Goodfellow, of Grey Co., Ont., while on a tour through the West stopped off here for a few days as the guest of Mr. and Mrs. R. E. Alcock. He left again for the east on Monday's No. 2 and will visit at Manitoba points before he returns home. Miss Wroe, sister of Robt. Wroe of this place, arrived from Boston, Mass., a short time ago and will remain in our burg for a time. The wild geese are very scarce in this part of the district this season, but no doubt before the fall closes they will be more plentiful. Times are rather quiet since the plebiscite vote, but it is thought the coming elections will tend to stir things up a little.

BIRTHS.

Ross.—At Regina, Sept. 25th, to Mr. and Mrs. James H. Ross, a daughter.

Next to Your Wife

Your underwear is your warmest friend. The cold weather is now coming on and heavier underclothing is necessary for your comfort and health. 'It is well to know that there is a vast difference in the makes of underwear. There is a feeling of great comfort and satisfaction in having on perfect fitting underwear. We have prepared to do the underwear trade this fall. We bought heavy and early away back in May when prices were at the very lowest. Never before have we had such values to offer in English, Scotch and Canadian natural wools, made up in the different sizes. We are starting all-wool underwear at \$1.00 a suit, and ranging \$1.25, \$1.50, \$1.75, \$2.00, \$2.25, \$2.50 and up to \$5.00 a suit according to quality. We are also showing a splendid range in fleece lined underwear for those whose skin is tender and cannot wear woolsens. We have just opened four large cases of superfine, all-wool blankets, white and grey, direct from the mills.
